PROFILE SUMMARY

- Aspiring Software engineer with two years of experience, skilled in development using Java, SQL, Spring Boot , React.js and related technologies.
- My pursuit centres on leading a healthy life, contributing to the green planet cause, attaining continuous professional advancement through learning and development as part of progressive organisation.

WORK EXPERIENCE

Freelance Development | 2023–Present

- Developed a project in java, Spring boot , REST API, React.js for a personal client.
- Practised active learning (learn and apply) , collaborated with developers and stakeholders to tailor client requirements.
- Turned disaster to opportunity by choosing a possible solution of freelancing in tough times of health issues.

Heath Break | 2023

- Determined to prioritise my well-being, due to temporary disability caused by an accident I took a career hiatus to focus on recovery.
- Utilised the time to learn and develop technical expertise.Assisted engineering students by taking online lectures and project assistance.

Associate Software Developer | Amdocs, Pune

2021-2023

- Contributed as a key member in a cross functional team setting. Showcased decision making and problem solving abilities to propose solutions by applying learnings into practice.
- Actively participated in team discussions and spring plannings. Led team of 4 members to develop sub assignments.
- Initiated to update the internal portal of our Unit to make support tasks easy. Delivered KT to new joinees.Assisted Production support on 2 occasions.
- Engaged in end-to-end development inception, prototyping, development, and productionizing, testing, code review, and release; Sharing 30% of the team's entire workload.
- Executed over 20 user stories, addressed over 15 defects contributing to 10%–50% of development in various sprint iterations.
- Enhanced the project code standard through resolution of more than 400 sonar issues.

TECHNICAL SKILLS

Java: Core Java , OOPS**,** J2EE, JDBC, Web Services, JSP, Collection API

Databases: SQL, PLSQL, (MySQL, Oracle, MS SQL Server) , NoSQL (MongoDB)

Data Structures & algorithms, Design Patterns

Spring Boot , Hibernate, SOAP, REST API,JSON

Web development: HTML, CSS, **JavaScript**, Bootstrap , **React.js**

Tools: Maven, GIT, Perforce, Jira, Jenkins, Agile (SCRUM).

Google Cloud Platform **(GCP).**

PERSONAL PROJECTS

Sugarplum Baker's | 2023-Present |

Local Baker took their business online. This Website is responsible for offering products and taking orders from customers.

● This React and Spring Boot application performs Order Management with Integrated third party applications and APIs to provide services.

Sentiment Analyzer | December 2020–March 2021 | GitHub

Sentiment analysis module built using Python libraries, ReactJS, and MongoDB, based on machine learning techniques.

● Enforced rigorous data cleaning processes and categorization to 10K+ tweets extracted directly from social media. Presented sentiment trends using insightful graphs and maps..

Project Management System | February 2020–April 2020 | GitHub

An application built using Java, JSP, JDBC, and MYSQL, for students and facilitated scheduling and evaluation, resulting in automation of process by 80%.

● Designed and built Data Access layer, and Controller layer through reusable and maintainable code, affecting 40% of development of the system.

EDUCATION

BE (Bachelor of Engineering) in Information Technology | Pune

Pune Institute of Computer Technology, Pune. (8.38) | August 2018–April 2021

Diploma in Computer Technology | Nashik

Government Polytechnic Nashik, Nashik. (89.31%) | July 2015–May 2018

VOLUNTEER ACTIVITIES

● **"Addiction": College Annual Event | January 2020**

Headed the audition team, entitled to conduct auditions of over 200 students by proper communication and time management for all stakeholders.

● **"Enthusia": College Technical Event: Coding Event Lead | September 2019**

I guided a competitive coding event, where I managed over 100 enrolled participants.

LANGUAGES

Proficient in English, Hindi, and Marathi.
